

Evidence Checklist - Activity 4

Resilience Ecosystem After a Service Surge

- ☐ Public facts are cited and separated from training assumptions.
- ☐ Every scenario question is answered with evidence or a stated limitation.
- ☐ The detailed procedure was followed and each checkpoint is recorded.
- ☐ Owners, decision rights, dates and review triggers are explicit where applicable.
- ☐ Acceptance test met: The plan removes or reduces at least two preventable demands, adds team and organisational resources, treats individual training as complementary, includes safe escalation and has balanced employee/service measures.
- ☐ The final recommendation states residual risk and the next validation action.
